

CPSU Party Following  
By Lean Kruschev and Mesaravan Istabal

I. Party Line Debate in Inauguration of Gorbochov and Krushchev since the fall of Stalin

By 1950 it was ready the new CPSU, and we decided to innovate a new line (like a new left but actually an old left).

II. Report

1950 - 1975 - A Long de-Stalinising process and innovation in Soviet public sector dynamics and crisis and financial imperialism with Americanisation underway.

1975 - 1990 - A long history of class struggle in France, as in Hungary and even Germany under Trotskyists.

III. Lines in the World (not followed by anyone correctly)

Cuba is against Soviet Union but interested in debates.

China is against Soviet Union but also interested in authentic lines.

India is with Soviet Union but cannot succeed in the new context of its failure, except by chance and tactics.

IV. Recent Lines from Sirohi

With America, and all comrades for a Slovenian Marxism (thanks Zizek).
